p o r t f o l i o

I am a muralist and illustrator based in Carrara, Italy. Since 2019, I have been creating murals both in Italy and internationally. My work explores the connection between humanity and nature, drawing inspiration from mythology and symbolism to uncover inner truths and invite reflection. I believe that muralism is a powerful tool for building connections between people and fostering a sense of belonging to the places we inhabit. Through my murals, I aim to revitalize neglected spaces, engage communities, and encourage dialogue.
